HOLIDAYS AT THE GRAND HOTEL

It is holiday time. The hotels are already booked out. The staff has a lot to do and the inconveniences don't lack...

Beyond the revolving door, there is a supply of trays, glasses and drinks, that serves all competitors.

The waiters must serve at their own table the more trays and drinks possible.

The difficulty of the game consists in the fact that, coming out of the revolving door there is a footbridge to pass and to do this one has to find the right moment, otherwise he falls into water and the "load" gets lost.

One waiter is thin. The other one has a dress that makes him look very fat.

GOLF WITH SURPRISE

2

Between the equipments of a first class summer resort, a golf course obviously can't be missing, yet it can reserve surprises...

The competitor has a certain time to throw 20 balls in the holes under which, in a tunnel, there are moles. These will try to devine where the ball is arriving and consequently prevent that it gets into the hole. But to see the "mole" must come out of the hole with its head, losing in this way precious time, while the player carrys on throwing balls.

Competitors: 1 boy ✓ 1 M manches: 6

HOLIDAYS IN A CARAVAN

But there is even who prefers to camp and likes doing everything by himself...

In the well padded caravan, and naturally on one side open, there are two campers who want to prepare a "minestrone" (vegetable soupe with rice or noodles).

At the referee's start signal the adversaries take away the "supports" that were keeping the caravan horizontal. Then, pulling some ropes placed on the sides, they make it swing, trying to prevent the "cook" from preparing dinner.

When time is over, the competitors take off the pot (transparent) and go to put it on a balance.

Winner is who has been able to make more "minestrone" that means who has more weight.

For every manche the caravan has to be supplied with "vegetables" and "different ingredients" like: bags of flour, water, potatoes, cabbages etc.

All inoffensive material. Water container in soft plastic. Pot with padded edges.

POT MUST BE WEIGHED AT END. HEAVIEST POT WINS!

FISHING WITH PUSH

Between the most popular sports we find fishing. Here it is practised with a particular technique...

The "fisher" is sitting on a special platform, made of a round ring (inner tube) and a formica top.

Pushed by his playfellows he descends the slide, reaches the bend and begins to turn. It is up to the competitor's ability and of those who pushes him, to dive in such a way that he falls directly on the most valued fish.

If the competitor finishes his turn without diving, he falls equally in the water without "fishing anything". There are expected "three or four" not subsequent pushes for every team. Example: CH - I - B - F - NL - GB and than again "CH" for the second turn and than the third and ev. the forth push.

Competitors:

1 boy *Infant*

PICNIC IN THE MOUNTAIN

6

Two couples of holiday-makers, will picnic on the meadow but an (adversary) cow is giving them trouble.

The cow is hold back by an elastic that permets it to reach at least for some seconds the table-cloth, laid out on the grass. The competitors must lay the "table" with many things (cakes, sweets, plates, glasses, bottles, etc.) and when the cow arrives they must try to prevent that it throws thing out of the table-cloth. This can be done by drawing the table-cloth forwards and backwards. Winner is the team who will have been able, at the end of the game, to keep on the table-cloth the larger number of things.

Competitors: 2 boys  
2 girls

HOLIDAYS ON THE ISLAND

FIL ROUGE

Some tourists have discovered a peaceful island and want inhabit it.

They load their boats (blown up) with their personal belongings (which can be suitcases of different size) or their furniture and fittings (stoves, beds, arm-chairs, etc.) and start rowing in direction of the island.

At the referee's start signal the adversaries set in action the hydrants. At the end of the game will be conted the things ~~of~~ the competitors, present on the island.

NB: the island will have the shape of a half glove, slippery and will turn like a roundabout.

As only support where one can get hold of, there will be a small wall or a palm-tree.

15 objects in boat

Competitors: 2 boys  
2 men / 2 girls  
1 girl

2 BOYS  
1 GIRL

manches: 7

Plus captain  
to have  
both boats.

Hydrants : 1 boy (adversary) poss Capt.

1 Min 15"

Plus 15" to keep things on island.

UNIVERSAL SKI... VERSION IKO

And now the gran finale...

For the first time you will have the pleasure to see a new sport which can be practised in every season, with every kind of weyther and anywhere. It's skiing that can be practised on snow, mountain lown and even on water.

The game consists in a competition made spectacular by different tricks. The skis are floating and the route is full of slopes and descents etc... Because of its slowness the game is suitable for the final one with 7 teams.

The route is devided up into "mountain", "lake", route with rain, etc. and at the beginning of every zone the competitor will find a particular dress and will have to put it on (example: skidress in the mountain and then a bathing-suit for the lake. The dress-changing takes place at fixed points of the route).

Competitors: 1 boy

1 GIRL ASS. CAP
